

Managed IT

Searching for an efficient and cost-effective IT solution? Virtucom works directly with your existing IT staff to maximize the educational value of your hardware and software—at a fixed rate, so you can control costs.

We make external IT support anything but external, as we become an extension of your IT team, ingraining ourselves into your community to develop a lasting relationship with your school or district. That deep familiarity helps us create a more streamlined tech environment for students, teachers, and administrators.

From infrastructure monitoring and 24/7 helpdesk support to remote computing and warranty management, we perform a variety of services that help you control costs and reduce headaches.

When you combine our IT proficiency with our passion for education, you get flexible and efficient end-to-end solutions.

Let's see what we can do together.
